The Second International Symposium "Atomic Cluster Collisions: structure and dynamics from the nuclear to the biological scale" **(ISACC 2007)**

GSI, Darmstadt, Germany, July 19 - 23 (2007)

Scientific program:

Clustering phenomena at nuclear and subnuclear scales
Electron scattering on clusters and biomolecules
Photoabsorption and photoionization of clusters
Structure and properties of atomic clusters
Clusters in laser fields
Ion-cluster collisions
Clusters on surface
Collision processes involving biomolecules
Structure and dynamics of bio-macromolecules
Fusion, fission and fragmentation dynamics in bio- and nanosystems
Clustering phenomenon in systems of various degrees of complexity
